

# Powering the most complex energy transactions

Datasite  
for Energy

Energy professionals face unrivaled levels of complexity and regulatory considerations in dealmaking. For more than 25 years they have made Datasite the preferred platform to securely communicate, collaborate, and navigate transactions in record time.

800+  
energy projects currently  
on Datasite

9,400+  
monthly active  
energy users

24/7/365  
in-house project  
management support

Data gathered by Datasite Insights as of July 30th 2020

## Sub-Verticals Covered

- Alternative & Renewables
- Downstream
- Exploration & Production
- Infrastructure
- Midstream
- Mining
- Oil & Gas
- Upstream

- Mergers & Acquisitions** | Managing a complex sale, divestiture, or acquisition? Datasite provides M&A specific tools for both buy-side and sell-side teams – including Q&A management, integrated redaction, key findings reports, and asset marketing solutions.
- Restructuring** | Lead a tight restructuring process with capabilities to expedite outreach to buyers and investors. Track all deal documents in one place, and once you are ready to invite other users, control access with advanced user permissions at the document or folder level.

- Capital Raising** | Prepare for an equity / debt financing or strategic transaction with an AI powered data room. Auto-categorize files from the get-go and track deal progress with customized analytics.
- Strategic Repository** | Embrace a single source of truth before and after a transaction. Datasite leverages the strictest global security standards while providing OCR search capabilities and document previews with language translation – making it easy for authorized users to find the right information when they need it.
