compliant

Data gathered by Datasite Insights as of July 30th 2020

Sub-Verticals Covered

- Computing Hardware
- Semiconductors
- Emerging Tech
- Software
- Media
- Tech Services
- Security
- Telecommunications

■ **Buy-Side Due Diligence** | Manage multiple projects securely with a scalable SaaS-based M&A platform. Datasite's VDR, tailored for buy-side deal teams, alerts you when new files arrive, lets admins grant access only to authorized users, and enables collaboration via shared deal findings. Analytics lets you keep deals on track.

■ **Asset Sales and Divestitures** | Deal artifact preparation, intelligent redaction / unredaction, deal marketing process management, Q&A management, and powerful analytics supports complete sell-side success. 24/7/365 customer service assures deal-team support.

■ **Capital and Venture Fund Raising** | Prepare for an equity / debt financing, refinancing, or venture investment, with an AI powered VDR. Let Datasite AI auto-categorize files and automate co-investor outreach. Manage investor, lender, and/or advisor access and track deal progress with tailored analytics.

■ **IP Protection and Licensing** | TMT operations demand that IP is securely created, managed and licensed. Protect IP with restricted download, watermarking and redaction. Track users and files accessed with analytics. Datasite leverages the strictest global security standards including SSAE 16 SOC 2 Type II attestation and complies with GDPR & CCPA.
