Datasite Diligence™

The leading sell-side data room

Where rigorous security meets seamless collaboration. Categorize and redact with AI, set permissions at every level, track tasks centrally, answer questions, analyze progress – and save weeks.
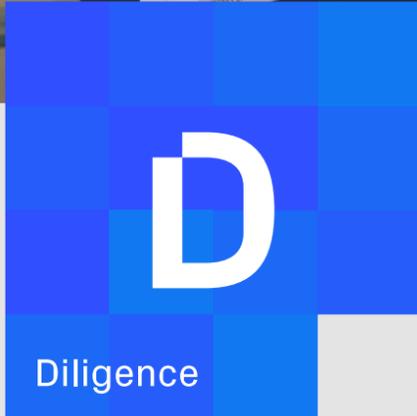

Diligence

Fast setup
Upload files and folders with drag-and-drop, or email them into the project, then edit in bulk. Import folder structures and checklists, or use proven templates.

Seamless collaboration
Let everyone work from one central checklist of tasks, using trackers linked to your index. Be free of emails and spreadsheets.

Powerful AI
Categorize, index, translate, and redact content using AI trained on millions of M&A documents.

Categorize & index
Categorize and index content automatically – even nested three levels down.

Preview in translation
Check that a document is correctly filed. Hover over it to see the first page, and translate it from any of 20 languages.

Redaction
Hide sensitive content in bulk, in up to five categories. Tag redactions by reason, then unredact selectively with one click.

Smart search
Search across your entire project for any text in any format – even images – in 16 languages.

Detailed analytics
Track deal progress from every angle. Measure engagement, monitor team activity, anticipate issues and triple-check permissions. Customize and schedule automatic reports.

Built-in Q&A
Handle buyer questions fast and spreadsheet-free in one secure hub. Set up Q&A teams, categories, permissions, approval workflows, and FAQs. When done, export to Excel.

Anytime, anywhere assistance
Speed your deals, cut costs and risks, and seize success with Datasite Assist. Call on 50+ years of dealmaking expertise, available 24/7/365 in 20+ languages, all at no extra cost. Just tap, type, or talk.

End-to-end security
Security is why dealmakers use Datasite. We protect your data so that you can focus on your deal. Rigorous security standards are embedded at every level: platform, processes, and people.
