

Welcome to your data room

Datasite Diligence is the premier sell-side data room, built for the demands of M&A - whether it's a billion-dollar asset sale, financing, or sensitive restructuring.

Upload & organize

- Manage your document request lists directly in Trackers tool
- Save hours in setup by copying from one project to another
- Retain folder structure and upload up to 50GB of zip files at a time
- Rename in bulk to reduce your manual workload

Work smarter with AI

- Organize and categorize your documents with AI
- Automatically detect sensitive data and choose what you want to redact
- Email attachments directly into the project inbox

Streamline your due diligence review

- Smart search finds text even inside images, in 16 languages.
- Embed permissions into downloaded documents and set expiry dates
- Access a native Excel® viewer with tiled watermarking
- Review video files directly from within the data room
- Use the mobile app to keep deals moving wherever you are

Invite only – and much more

- Grant user access and send invitations via the fast, easy interface
- Control access with role-based security tools
- Allow or deny users the ability to download documents
- Activate, deactivate, or withdraw invitations in a single click

Redact and adapt

- Maintain regulatory compliance with word-level control of information
- Redact words, phrases, and even images quickly and accurately.
- Unredact selected data types as due diligence progresses

Provide all the right answers in Q&A

- Stay in control of the Q&A phase with our simple and powerful tool
- Establish teams, create question categories, set question limits, and approval workflows using the setup wizard

Decide faster with powerful analytics

- View all relevant KPIs, at a glance
- Review real-time permission levels and content history
- Track users and buyers on intuitive dashboards
- Create a custom dashboard that suits your needs
- Send real-time dashboards to anyone on the team

24/7/365 service and support

- Get support in 20 languages whenever and wherever you need it
- Get proactive and practical help via Datasite Assist
- Benefit from deep industry, sector, and deal expertise
- Find answers fast in the Datasite Assist portal

Ironclad security

- SOC 2 Type II attestation
- ISO 27001, 27017, 27018, 27701 certified
- EU & UK GDPR, CPRA, and APP regulatory compliant
- In-transit data secured via TLS 1.2 protocol
- At-rest data secured with AES 256-bit encryption
- Option for single sign-on (SSO), multi-factor authentication (MFA), and information rights management (IRM)
